SUMMER INTERNSHIP PLACEMENT REPORT

MBA CLASS OF 2024-2026

BITSoM

BITS SCHOOL
OF MANAGEMENT

DEAN'S MESSAGE

I am happy to share the Summer Placement Report for the Class of 2026, with 100% placement, for the fourth cohort of BITS School of Management, BITSoM.

The Class of 2026 navigated a challenging economic landscape with resilience and purpose. With a majority of students placed through our campus process, 24 students proactively found their own internships. The summer placement outcomes reflect not only the calibre of our students but also the sustained efforts of our Industry Partnership and Career Services team and confidence placed by recruiters in the BITSoM learning experience. A broad range of sought-after industries and domains have been well represented, with 20 first-time recruiters added to the portfolio this year - a testament to the School's growing brand equity and its ability to attract a diverse mix of employers. This also aligns with our strategic approach towards broad-basing the recruiter portfolio to mitigate risks from sector-specific slowdowns.

I believe our students will focus on the valuable experience and learning opportunities from these internships. I am also particularly happy that several of them are working on cutting-edge AI related projects. As we broaden our recruiter base and deepen employer relationships, we remain committed to being among the very best B-schools in the country.

DR SARAVANAN KESAVAN

Dean and Professor of Operations
BITSoM

PILLARS OF THE BITSoM EXPERIENCE

A Rockstar Faculty from some of the best B-schools in the world

Cutting-edge curriculum with Technology embedded as a horizontal
